

HandiSolutions introduces our new line of heavy duty resin cabinets. These cabinets are constructed from a high impact resin material for strength while offering a stylish appearance. Each shelf will support a maximum of 75lbs. These cabinets are designed to hang onto the Handiwall. All necessary mounting hardware is included with each cabinet.

HandiResin cabinets are available in two colors, taupe and gray. There are four models of cabinets available for your storage needs.

Every HandiResin cabinet has the ability for you to private label the product. Simply design a four color decal to be placed onto the oval display area on the right cabinet door. HandiSolutions can help you design your label or supply the dimensions necessary for your development.
